Benefit Snapshot

Benefit	BluePeak coverage
Basic employee life	2 times annual base salary, maximum \$500,000; company-paid.
Basic AD&D	Equal to basic life amount; company-paid.
Supplemental employee life	Up to 5 times annual base salary, combined maximum \$1,000,000, subject to evidence rules.
Spouse/domestic partner life	Up to \$250,000, subject to employee coverage and evidence rules.
Child life	\$10,000 per eligible child.
Short-term disability	60% of weekly base earnings after a 14-day elimination period, up to \$2,500 per week, maximum 26 weeks.
Long-term disability	60% of monthly base earnings after 180 days, up to \$15,000 per month, subject to plan duration and offsets.

Plan document rule: Insurance certificates and plan documents control eligibility, evidence of insurability, exclusions, disability definition, offsets, claims, appeals, and duration.

1. Eligibility and Coverage Start

Regular U.S. employees scheduled at least 20 hours per week are eligible. Basic life, basic AD&D, short-term disability, and long-term disability begin on the first day of the month on or after the employee's start date. Supplemental elections made within the new-hire window are effective under the guaranteed-issue and evidence rules.

Dublin employees receive local death-in-service and income-protection benefits described in the Ireland Benefits Portal.

2. Basic Life Insurance

BluePeak pays the premium for basic employee life insurance equal to 2 times annual base salary, rounded according to the certificate, up to \$500,000. Coverage above a legal threshold may create imputed taxable income.

Base salary excludes overtime, bonus, commission, equity, allowances, and reimbursements unless the certificate defines them differently. Coverage changes when salary changes, subject to insurer processing.

3. Accidental Death and Dismemberment

Basic AD&D equals the basic life amount. AD&D may pay an additional benefit for covered accidental death or a scheduled amount for specified losses. Illness, natural causes, and excluded activities are not covered under AD&D, although basic life may still apply.

Travel accident coverage may also apply during authorized business travel. The policies coordinate under their terms and may have separate beneficiaries.

4. Supplemental Life

Employees may elect supplemental life in increments up to 5 times annual base salary, with a combined basic and supplemental maximum of \$1,000,000. Coverage above the guaranteed-issue amount requires evidence of insurability and insurer approval.

An employee may elect spouse or domestic-partner coverage up to \$250,000, not exceeding the employee supplemental amount where the certificate restricts it. Eligible child coverage is \$10,000 per child. Dependent coverage may require evidence or relationship verification.

Premiums are based on coverage amount, age bands, tobacco status where lawful, and insurer rates. Rates can change at plan renewal or when the employee enters a new age band.

5. Beneficiaries

Employees should name primary and contingent beneficiaries in the Benefits Portal and review them after marriage, divorce, birth, death, or estate-plan changes. A will does not automatically replace the plan beneficiary designation.

If no valid beneficiary is on file, benefits are paid under the certificate's default order. Spousal or community-property consent may be required in some circumstances. BluePeak cannot provide estate or tax advice.

6. Short-Term Disability

STD replaces 60 percent of weekly base earnings, up to \$2,500 per week, after a 14-calendar-day elimination period. Benefits may continue for up to 26 weeks from the disability date, including the elimination period, subject to continuing disability and plan rules.

The employee may use Sick Leave or PTO during the elimination period and may supplement STD to 100 percent of base pay when the plan and payroll process permit. Total payments will not exceed the applicable earnings limit.

6.1 Claim Process

Contact People Operations as soon as an absence may exceed 5 workdays. The employee files the claim with the insurer and authorizes the provider to submit functional information. The manager receives only work-status and restriction information.

The insurer, not the manager, decides whether the disability definition is met. A denied claim includes appeal rights and deadlines.

7. Long-Term Disability

LTD replaces 60 percent of monthly base earnings, up to \$15,000 per month, after 180 days of disability. Benefits continue while the certificate's disability definition is met, subject to maximum duration, rehabilitation provisions, offsets, limitations for certain conditions, and retirement-age rules.

Other income, including Social Security disability, workers' compensation, state disability, or other employer benefits, may reduce the LTD payment. The employee must apply for required offset benefits and report changes.

8. Disability Definition and Return-to-Work Support

The certificate may use an own-occupation definition for an initial period and an any-occupation definition later. The insurer evaluates medical information, job duties, earnings, and functional capacity.

Partial-disability and rehabilitation benefits may support a gradual return. BluePeak separately evaluates reasonable accommodation and job-protection obligations; insurer approval or denial does not decide employment accommodation.

9. Pre-Existing Conditions and Exclusions

LTD may limit a disability related to a condition for which the employee received treatment, consultation, care, or medication during the look-back period stated in the certificate. Life and AD&D policies also contain exclusions. Review the certificate and contact Benefits with questions.

10. Pay, Tax, and Benefit Coordination

Because BluePeak pays the base STD and LTD premium, disability benefits are generally taxable under current tax treatment. An employee may have access to an after-tax premium election during open enrollment when offered; the Benefits Portal explains the tax effect.

Health coverage continues during approved paid leave under active-employee terms. During unpaid disability leave, the employee must pay required contributions. Retirement contributions apply only to pay processed through payroll, subject to plan terms.

11. Parental Leave and Childbirth

A birth parent's qualifying medical disability may produce STD benefits during the 16-week paid parental period. BluePeak coordinates payments so the employee receives no more than 100 percent of base pay. The parental-leave period is not shortened by the insurer's payment.

A medical complication lasting beyond parental leave may support continued STD, LTD, protected leave, or accommodation.

12. Workers' Compensation and Workplace Injury

A work-related injury or illness must be reported immediately under the safety policy. Workers' compensation is primary when applicable. Disability benefits may be reduced or excluded under coordination rules. Do not delay a workplace report while deciding which benefit applies.

13. Coverage During Leave and Separation

Coverage continues during paid leave and certain protected leave as stated in the plan. Supplemental premiums must remain current. At separation, group coverage normally ends on the last day of the month, subject to conversion or portability options and deadlines.

Conversion changes group life coverage to an individual policy; portability continues term coverage under carrier rules. These options can be time-sensitive. The separation packet provides instructions.

14. Claims After Death

A beneficiary should contact Benefits. BluePeak confirms employment and coverage, and the insurer requests the death certificate and claim information. Benefits cannot direct payment or interpret a disputed beneficiary designation.

15. Fraud, Privacy, and Appeals

Provide accurate information and notify the insurer of work, income, recovery, or other changes. Claim information is handled confidentially. BluePeak receives only information needed for benefit and employment administration.

Appeals must be submitted to the insurer by the deadline in the denial notice. People Operations can provide plan documents and employment records but cannot overturn the insurer's decision.

16. Frequently Asked Questions

16.1 How long can short-term disability pay?

Up to 26 weeks from the disability date, subject to the 14-day elimination period and continuing eligibility.

16.2 How much does STD pay?

60 percent of weekly base earnings, up to \$2,500 per week.

16.3 Is basic life free to me?

BluePeak pays the premium. Imputed taxable income may apply to coverage above the legal threshold.

16.4 Do I need evidence of insurability?

For supplemental coverage above the guaranteed-issue amount, late elections, or certain increases, yes.

16.5 Does insurer approval guarantee job protection?

No. Benefit eligibility and employment leave or accommodation are separate determinations, although they are coordinated.

90. Administration, Exceptions, and Questions

BluePeak administers life and disability insurance consistently with the employee's work location, employment classification, written employment terms, and applicable law. A statutory or contractual entitlement that is more generous than this document will apply to the extent required. A manager may not waive a legal requirement, create a new benefit, or promise an exception without written approval from the document owner.

Employees should raise questions before relying on an informal interpretation. Contact benefits@bluepeaktech.com through Outlook or the People Help channel in Microsoft Teams. Payroll, Legal, Information Security, or a site leader will be consulted when the question involves tax, wage-and-hour, privacy, immigration, safety, or local-law considerations.

Approved exceptions must identify the employee, the policy provision, the business reason, the approving authority, the start and end date, and any conditions. Exceptions are stored with the employee or transaction record and do not establish a precedent for other employees.
