Revision History 8

Quick Start Checklist

Timing	Required action	Where to complete it
Before day one	Complete identity, tax, direct-deposit, emergency-contact, and policy acknowledgments.	Secure New Hire Center
Day one	Sign in with Microsoft Entra ID, register MFA, confirm device compliance, and meet your manager.	Company device and Microsoft Authenticator
First 3 U.S. business days	Complete Form I-9 document review.	Secure verification appointment
First 7 days	Finish security, privacy, conduct, and workplace-safety training.	BluePeak Learning
First 30 days	Elect or waive health and welfare benefits.	Benefits Portal
By day 30	Confirm role outcomes, key stakeholders, recurring meetings, and first-quarter priorities.	30/60/90 plan
Day 60	Review progress, access, workload, and development needs with your manager.	Manager check-in
Day 90	Complete onboarding review and transition to the regular performance cycle.	HR system

Important: Never send identity documents, bank details, tax forms, medical information, or dependent Social Security numbers through ordinary email or Teams chat. Use only the secure workflow identified in the New Hire Center.

1. Before Your First Day

1.1 Welcome Communications

Talent Acquisition sends a welcome message containing the confirmed start date, assigned work arrangement, office or approved remote location, manager, orientation schedule, and secure New Hire Center link. The message also identifies the employment entity and country-specific requirements that apply.

Contact talent@bluepeaktech.com if the start date, legal name, work location, manager, or employment terms do not match the signed offer. Do not begin work, attend customer meetings, or access company information before the authorized start time.

1.2 Required Pre-Start Information

New hires are asked to provide:

- 1 legal name and preferred name;
- 1 home and mailing address;
- 1 personal email and telephone number;
- 1 emergency contact;
- 1 tax and payroll elections;
- 1 direct-deposit instructions;
- 1 work-authorization information where required;
- 1 shipping details for approved equipment; and
- 1 accommodation or accessibility needs for onboarding.

BluePeak uses this information for legitimate employment, payroll, benefits, security, and emergency purposes. Access is limited based on job responsibilities.

1.3 Equipment and Workspace

Onsite and Hybrid employees normally receive their device at the assigned site. Remote-First employees receive approved equipment by tracked shipment. Standard equipment includes a managed laptop, power adapter, security key where required, and role-appropriate accessories. Employees should report missing, damaged, or unexpected equipment to servicedesk@bluepeaktech.com before using it.

Remote employees should prepare a private, stable, and ergonomically reasonable workspace with reliable internet. BluePeak does not require a dedicated room, but conversations and screens must be protected from household members, visitors, and the public.

2. Your First Day

2.1 Identity and Access Setup

Use the temporary activation method provided by the Service Desk to sign in to the company device. You will be required to:

- 1 create a compliant passphrase;
- 2 register Microsoft Authenticator and any issued security key;
- 3 confirm device encryption and management enrollment;
- 4 review account-recovery methods;
- 5 sign in to Outlook, Teams, the Employee Portal, and BluePeak Learning; and
- 6 report any unexpected prompts, applications, or access.

The Service Desk will never ask for your password or MFA code. A request for those details should be treated as a suspected phishing attempt and reported to Security.

2.2 New Hire Orientation

Company orientation introduces BluePeak's mission, products, customers, values, organization, employee resources, benefits, security expectations, and reporting channels. Orientation is not a substitute for the detailed policies; it shows where to locate them and who can answer questions.

2.3 Manager Welcome Meeting

The first manager meeting should cover role purpose, immediate priorities, team norms, expected work hours, work arrangement, decision authority, customer or production access, key meetings, and the first 30-day outcomes. Employees should leave with a written onboarding plan and a list of the people they need to meet.

3. First-Week Requirements

3.1 Mandatory Training

Course	Standard deadline	Why it matters
Information Security Fundamentals	3 business days	Account, device, data, phishing, and incident responsibilities.
Company Code of Conduct	5 business days	Ethical standards, conflicts, gifts, reporting, and non-retaliation.
Privacy and Customer Data	5 business days	Personal data, customer commitments, approved sharing, and retention.
Workplace Safety and Emergency Procedures	7 calendar days	Site and remote emergency actions, injuries, hazards, and evacuation.
Role-specific compliance	As assigned	Requirements for sales, engineering, support, finance, people, or privileged access.

Failure to complete training may result in restricted access until the requirement is satisfied.

3.2 Payroll Review

BluePeak pays semi-monthly on the 15th and the last business day of the month. Your first pay date depends on the start date and payroll cutoff. Confirm the following in the Payroll Portal:

- 1 legal name and address;
- 1 employment entity and work location;
- 1 salary or hourly rate;
- 1 tax withholding elections;
- 1 direct-deposit account and allocation;
- 1 benefit deductions after enrollment; and
- 1 timekeeping access if your position is non-exempt.

A direct-deposit change submitted after the published cutoff may take effect on the next pay cycle. Payroll may issue a paper check or secure pay card if an account cannot be validated.

3.3 Benefits Enrollment

Eligible employees have 30 calendar days from the start date to enroll or waive coverage. The window is measured from the start date, not from the date orientation occurs. Review the Health Insurance Guide, Dental & Vision Benefits, Life & Disability Insurance, Retirement (401k) Plan Guide, and Employee Wellness Program before submitting elections.

Employees adding dependents must provide required eligibility information through the secure Benefits Portal. A spouse, domestic partner, child, or other dependent is not enrolled until the election and any required verification are accepted.

4. Your 30/60/90-Day Plan

4.1 First 30 Days - Learn and Establish

The first 30 days focus on role clarity and foundational access. Expected outcomes normally include:

- 1 understanding the team mission, customers, products, and key metrics;
- 1 completing mandatory training and policy acknowledgments;
- 1 confirming system, data, and environment access;
- 1 meeting core partners and understanding escalation paths;
- 1 observing key workflows and documenting questions;
- 1 agreeing on first-quarter priorities and measures of success; and
- 1 identifying accessibility, equipment, or support needs.

4.2 Days 31-60 - Contribute and Calibrate

During days 31 through 60, the employee should begin owning routine work with appropriate review. The manager and employee should discuss quality expectations, delivery pace, customer impact, collaboration, workload, and any access or training gaps. Feedback should be specific and actionable.

4.3 Days 61-90 - Own and Improve

By day 90, most employees should independently perform core responsibilities, understand decision boundaries, manage routine priorities, and know when to escalate. The 90-day review records accomplishments, remaining gaps, next-quarter priorities, and a development focus. It does not guarantee continued employment or a pay change.

5. Department Onboarding Paths

Function	Additional onboarding focus	Typical systems or access
Product and Engineering	Development lifecycle, architecture, coding standards, production access, secure design, incident response.	GitHub Enterprise, Azure DevOps, test environments, approved AI development tools.
Sales and Marketing	Product positioning, CRM hygiene, pricing authority, gift rules, customer data, marketing claims.	CRM, sales enablement, approved proposal and campaign tools.
Customer Success and Services	Implementation methodology, support severity, customer access, data handling, escalation.	Customer success platform, ticketing, secure support tools.
Finance and Payroll	Segregation of duties, approval limits, close calendar, payment controls, confidential data.	ERP, expense, payroll, procurement, banking portals.
People Operations	Employee-record confidentiality, case handling, benefits, employment decisions, reporting obligations.	HRIS, applicant tracking, benefits, case management.
Information Security and IT	Privileged access, change control, monitoring, incident response, asset management.	Identity administration, endpoint management, SIEM, service management.
Legal and Compliance	Matter confidentiality, contract authority, legal holds, privacy, investigations.	Contract lifecycle, matter management, e-discovery.

Access is granted according to least privilege. A manager request does not by itself authorize privileged, production, customer, financial, or employee-data access; the required owner must approve it.

6. Working at a BluePeak Site

6.1 Denver Headquarters

Denver is the corporate headquarters and hosts executive, product, engineering, customer, people, legal, and workplace teams. Employees use their badge for building and floor access. Visitors must be registered and escorted in controlled areas. The posted emergency map identifies exits, stairwells, first-aid supplies, AEDs, and the assembly area.

6.2 Austin Office

Austin supports sales, finance, customer operations, and engineering. Designated Austin teams and site operations use a 9:00 a.m. to 4:00 p.m. local collaboration window. Employees should confirm team schedules with their manager.

6.3 Dublin Office

Dublin supports EMEA customers, engineering, security, operations, and regional functions. Local employment terms, public holidays, working-time requirements, benefits, and leave may differ from U.S. provisions. Dublin employees should use the location-specific materials in the Employee Portal.

7. Hybrid and Remote Onboarding

Hybrid employees normally attend onsite orientation and work onsite at least three days per week after onboarding unless an approved plan states otherwise. Remote-First employees attend orientation through Teams and may be asked to travel for a team or company event with reasonable notice.

During the first month, remote employees should have more frequent manager check-ins, clear written priorities, and deliberate introductions. Cameras are encouraged when useful but are not required in every meeting; accessibility, bandwidth, cultural, and practical considerations should be respected.

A new hire may not work temporarily from another state or country without approval. The approved location shown in HR and payroll systems must remain accurate.

8. Getting Help

Need	Contact or system
Employment record, policy, leave, or onboarding	people@bluepeaktech.com or People Help in Teams
Benefits enrollment or dependent verification	benefits@bluepeaktech.com
Pay, tax, direct deposit, or timekeeping	payroll@bluepeaktech.com
Device, application, or account support	servicedesk@bluepeaktech.com
Suspected phishing, data exposure, or security incident	security@bluepeaktech.com
Workplace, badge, office, or ergonomic issue	workplace@bluepeaktech.com
Accommodation or employee-relations concern	employeerelations@bluepeaktech.com
Conduct or compliance concern	integrity@bluepeaktech.com

9. Manager Onboarding Checklist

Managers are responsible for preparing before the employee starts. At minimum, the manager should:

- 1 confirm the role, location, work arrangement, schedule, and start date;
- 1 submit access requests early and distinguish day-one access from elevated access;
- 1 arrange equipment, seating, badge, and remote shipment;
- 1 publish a 30/60/90-day plan with measurable outcomes;
- 1 identify an onboarding partner or buddy;
- 1 schedule stakeholder introductions and recurring team meetings;
- 1 explain team decision rights, communication norms, and escalation paths;
- 1 provide timely feedback during the first 90 days; and
- 1 correct access, workload, behavior, or role-clarity issues promptly.

10. New Hire Frequently Asked Questions

10.1 When will I receive my first paycheck?

The answer depends on your start date and the payroll cutoff. Payroll displays the expected first pay date in the New Hire Center. BluePeak pays on the 15th and last business day of the month.

10.2 Can I change benefit elections after I submit them?

During the 30-day new-hire window, you may revise an election until the submission deadline shown in the Benefits Portal. After the window closes, changes generally require annual open enrollment or an eligible qualifying life event.

10.3 What should I do if my manager asks me to use a personal device?

Do not access company information from an unapproved personal device. Contact the Service Desk. A temporary business need does not override security requirements.

10.4 Can I begin working before my official start date?

No. Work may begin only after the authorized start time and access activation. Contact Talent Acquisition if a manager requests early work.

10.5 Where is the full employee directory?

Use Microsoft 365 People Search or the Entra directory for the current employee roster. The Employee Directory & Contacts document lists leadership, department, site, and escalation contacts.

90. Administration, Exceptions, and Questions

BluePeak administers the onboarding process consistently with the employee's work location, employment classification, written employment terms, and applicable law. A statutory or contractual entitlement that is more generous than this document will apply to the extent required. A manager may not waive a legal requirement, create a new benefit, or promise an exception without written approval from the document owner.

Employees should raise questions before relying on an informal interpretation. Contact people@bluepeaktech.com through Outlook or the People Help channel in Microsoft Teams. Payroll, Legal, Information Security, or a site leader will be consulted when the question involves tax, wage-and-hour, privacy, immigration, safety, or local-law considerations.

Approved exceptions must identify the employee, the policy provision, the business reason, the approving authority, the start and end date, and any conditions. Exceptions are stored with the employee or transaction record and do not establish a precedent for other employees.

91. Related Documents and Systems

Resource	When to use it
Employee Handbook	Company-wide employment practices and workplace standards.
Benefits Enrollment Form	Secure election form when portal enrollment is unavailable or HR directs its use.
Payroll Schedule & Direct Deposit Policy	Pay dates, account setup, cutoffs, pay statements, and correction process.
Password & Account Security Policy	Passphrase, MFA, recovery, and account-protection requirements.
Workplace Safety & Emergency Procedures	Site and remote emergency actions and reporting.
