Quick Answers

Question	Current rule
How often are employees paid?	Semi-monthly; the 15th and the last business day of each month.
What happens when a pay date falls on a weekend or banking holiday?	Pay is delivered on the preceding business day.
Is direct deposit required?	U.S. employees should enroll in direct deposit unless prohibited by law or an approved exception applies. Dublin payroll uses the local bank-payment process.
How many deposit accounts may I use?	Up to three active accounts: one balance account and up to two fixed-amount accounts.
When must a bank change be submitted?	At least five business days before the applicable pay date; late changes may take effect on the following payroll.
When should a pay error be reported?	Immediately after discovery. Confirmed material underpayments receive expedited correction; other corrections are made no later than the next regular payroll.
Are approved business expenses part of wages?	No. Reimbursements appear separately from taxable wages and follow the Expense Reimbursement Policy.

Payroll principle: Employees must be paid accurately and on time for all compensable work. A manager may not delay or reduce pay because time was unapproved, a project exceeded budget, or an administrative deadline was missed.

1. Purpose and Scope

This policy establishes BluePeak's payroll schedule and controls for delivering wages, administering direct deposit, reviewing pay statements, correcting errors, recovering overpayments, and issuing final pay. It applies to all BluePeak employees, subject to the payroll rules and mandatory law of the employee's work location.

U.S. employees are paid through BluePeak's U.S. payroll. Dublin employees are paid monthly through the Irish payroll on the last banking day of the month unless their written terms state otherwise. Contractor invoices, vendor payments, equity transactions, and sales commissions administered under a separate plan are outside this document.

2. Payroll Calendar

BluePeak's U.S. payroll is semi-monthly, producing 24 regular pay dates per calendar year. The first payroll generally covers work and salary administration from the first through the fifteenth; the second covers the remainder of the month. Non-exempt hours, overtime, premiums, variable payments, deductions, and corrections may be paid one cycle in arrears when needed for accurate review.

2.1 2026 U.S. Pay Dates

Month	First pay date	Second pay date
January	Thursday, January 15	Friday, January 30
February	Friday, February 13	Friday, February 27
March	Friday, March 13	Tuesday, March 31
April	Wednesday, April 15	Thursday, April 30
May	Friday, May 15	Friday, May 29
June	Monday, June 15	Tuesday, June 30
July	Wednesday, July 15	Friday, July 31
August	Friday, August 14	Monday, August 31
September	Tuesday, September 15	Wednesday, September 30
October	Thursday, October 15	Friday, October 30
November	Friday, November 13	Monday, November 30
December	Tuesday, December 15	Thursday, December 31

Payroll posts the next year's calendar in the Employee Portal by December 1. A date shown in the portal controls if a banking closure or emergency requires a change.

2.2 Payroll Cutoffs

Non-exempt employees must submit complete time records by 10:00 a.m. local time on the first business day after the pay period closes. Managers must review by 12:00 noon local time the following business day. Variable-pay files, one-time payments, benefit changes, garnishments, and expense approvals follow the cutoff published in the Payroll Calendar.

Missing an administrative cutoff does not authorize off-the-clock work or forfeiture of earned pay. Payroll may use the best verified information available and correct the record in the next cycle.

3. Direct Deposit

3.1 Enrollment

Employees enroll or make changes through the secure Employee Portal. Payroll will not accept routing and account numbers through ordinary email, Teams chat, or an unencrypted attachment. An employee who cannot use the portal should contact payroll@bluepeaktech.com for a verified alternative.

The employee must provide:

- 1 the financial institution's routing or branch identifier;
- 1 the account number and account type;
- 1 the account-holder name when requested;
- 1 a fixed amount or percentage for each secondary account; and
- 1 one account designated to receive the remaining balance.

BluePeak may require a prenotification or validation period. During validation, payment may be delivered to the current account or by an approved payroll card or paper check where available.

3.2 Account Allocation

An employee may maintain up to three deposit accounts. Up to two may receive a fixed dollar amount; one must receive the remaining net pay. Percentage splits are available only where supported by the payroll platform. The employee is responsible for ensuring that allocations do not exceed net pay.

3.3 Change Timing and Fraud Prevention

Submit a direct-deposit change at least five business days before payday. A late request may take effect on the following pay date. Payroll may hold a requested change while independently verifying the employee's identity, especially when the request changes both contact information and bank details.

Employees should treat an unexpected bank-change message as a potential phishing attempt. Payroll will never ask for a password, MFA code, or full account credentials. Suspected fraud must be reported immediately to security@bluepeaktech.com and Payroll.

3.4 Rejected or Returned Deposits

If a bank rejects a deposit, Payroll confirms the return before reissuing funds. The employee must promptly provide corrected information through the secure process. Reissue is normally completed within three business days after BluePeak receives returned funds and validates the account. Bank fees caused by inaccurate employee-provided information are the employee's responsibility unless law requires otherwise.

4. Pay Statements

Electronic pay statements are available in the Employee Portal. Each statement identifies, as applicable:

- 1 gross wages or salary;
- 1 recorded hours, overtime, and premiums;
- 1 incentive, commission, bonus, or one-time payments;
- 1 pre-tax and after-tax deductions;
- 1 employer benefit contributions;
- 1 taxes and statutory deductions;
- 1 approved expense reimbursements shown separately;
- 1 paid-time-off or sick-time balances where supported; and

1 year-to-date totals.

Employees should review every statement and retain copies needed for personal records. Portal access continues for at least 12 months after separation where supported; former employees may request archived statements from Payroll after identity verification.

5. Deductions and Withholding

BluePeak makes deductions authorized by the employee, required by law, or permitted under a benefit plan or written agreement. Examples include taxes, benefit premiums, retirement contributions, garnishments, valid wage assignments, and lawful recovery arrangements.

An exempt employee's salary will not be reduced for partial-day absences except where lawful under an applicable leave or disciplinary rule. An employee who believes an improper deduction occurred should report it to Payroll. BluePeak will investigate and reimburse an improper deduction promptly.

Employees must keep tax withholding, home address, work location, and legal-name information current. A change in work state or country requires advance review under the Remote Work Policy and may not be solved solely by changing the payroll address.

6. Payroll Corrections

6.1 Reporting a Concern

Report a possible error through the Payroll Help form or payroll@bluepeaktech.com and include the pay date, affected item, expected amount, supporting time or approval record, and a secure contact method. Do not email a Social Security number, bank account number, medical record, or government identity document.

6.2 Service Standards

Payroll acknowledges a complete inquiry within one business day. A confirmed material underpayment that creates hardship or exceeds the greater of \$250 or 10 percent of expected net pay is normally corrected through an off-cycle payment within three business days. Smaller or non-urgent corrections are processed no later than the next regular payroll. Mandatory local deadlines override these targets.

A disputed classification, commission, incentive, garnishment, or tax question may require additional review. Payroll will provide status updates and will not close the case merely because the next payroll has occurred.

6.3 Overpayments

Employees must report a known overpayment. Payroll will provide a written calculation, the affected periods, tax treatment, and proposed recovery method. BluePeak will not make a deduction that is prohibited by law or that would reduce pay below a required minimum. Reasonable installments may be arranged. A disputed amount will be reviewed before recovery proceeds, except where a legal order requires action.

7. Final Pay and Separation

Final wages, accrued PTO payout where applicable, approved expense reimbursements, deductions, and benefit adjustments are processed according to the employee's work location and separation date. BluePeak's operational target is to issue final pay within five business days after the final day, but an earlier statutory deadline controls.

Managers must submit final time and approved variable-pay information promptly. The employee remains responsible for returning company property, but final wages will not be withheld as security for equipment. A lawful, documented deduction may be made only with required authorization and review.

Post-separation payments such as commissions, bonuses, equity proceeds, or expense reimbursements follow the governing plan or policy and may occur after final wages.

8. Privacy and Payroll Records

Payroll records contain restricted personal and financial information. Access is limited to personnel with a business need. Employees should use secure portal workflows and should not send sensitive data through personal email. Payroll retains records according to the corporate retention schedule and applicable law.

Managers may see compensation and time information needed for their responsibilities, but may not disclose it beyond that need. Nothing in this policy restricts employees from discussing their own wages or working conditions as protected by law.

9. Employee and Manager Responsibilities

Employees must: record all hours accurately, review pay statements, meet form deadlines, protect portal credentials, update lawful tax and address information, and report errors promptly.

Managers must: approve accurate time rather than budgeted time, meet review cutoffs, escalate potential classification issues, avoid informal pay promises, and never direct off-the-clock work.

Payroll must: apply approved records consistently, preserve an audit trail, protect restricted data, correct confirmed errors, and communicate material payroll changes.

90. Administration, Exceptions, and Questions

BluePeak administers payroll administration consistently with the employee's work location, employment classification, written employment terms, and applicable law. A statutory or contractual entitlement that is more generous than this document will apply to the extent required. A manager may not waive a legal requirement, create a new benefit, or promise an exception without written approval from the document owner.

Employees should raise questions before relying on an informal interpretation. Contact payroll@bluepeaktech.com through Outlook or the People Help channel in Microsoft Teams. Payroll, Legal, Information Security, or a site leader will be consulted when the question involves tax, wage-and-hour, privacy, immigration, safety, or local-law considerations.

Approved exceptions must identify the employee, the policy provision, the business reason, the approving authority, the start and end date, and any conditions. Exceptions are stored with the employee or transaction record and do not establish a precedent for other employees.
