Plan Snapshot

Feature	BluePeak 401(k) Plan
Eligibility	First day of U.S. employment for regular employees.
Automatic enrollment	3% pre-tax after 60 days unless the employee elects another rate or opts out.
Automatic escalation	Increases 1 percentage point each January up to 10% unless changed or disabled.
Company match	100% of the first 4% contributed, plus 50% of the next 2%; maximum match is 5% of eligible pay.
Employee vesting	Immediate.
Employer-match vesting	100% after 2 years of vesting service; 0% before the 2-year cliff.
Loans	One at a time; up to 50% of vested balance, maximum \$50,000, subject to plan and legal limits.

Plan document rule: The official plan document and Summary Plan Description control eligibility, compensation, contributions, vesting, distributions, claims, and fiduciary administration. Annual legal contribution limits are displayed in the Retirement Portal.

1. Eligibility and Enrollment

Regular U.S. employees are eligible to contribute on the first day of employment. Temporary workers, interns, leased employees, and contractors participate only when the plan document requires it. Dublin employees participate in the BluePeak Ireland Defined Contribution Pension Plan rather than the U.S. 401(k).

Employees may enroll immediately in the Retirement Portal and choose pre-tax, Roth, or a combination of contributions. The election applies to eligible pay processed after the payroll cutoff.

2. Automatic Enrollment

An employee who has not made an election after 60 days is automatically enrolled at 3 percent pre-tax. The employee may opt out or change the rate before or after automatic enrollment. A refund of automatic contributions is available only when the plan and law permit and the request is made within the required window.

Unless the employee disables the feature, the automatic rate increases by 1 percentage point each January until it reaches 10 percent. The escalation does not guarantee that the employee will reach the legal contribution limit or receive the full match.

3. Employee Contributions

Employees may contribute a whole percentage of eligible pay, subject to annual legal limits and payroll capacity. Pre-tax contributions reduce current taxable income for federal income-tax purposes; Roth contributions are made after tax and may qualify for tax-free distribution under legal rules. Payroll taxes may still apply.

Contribution elections may be changed or stopped through the Retirement Portal. A change submitted by the published cutoff normally begins on the next practicable pay date. BluePeak cannot guarantee market timing or retroactive contributions after payroll is processed.

Employees age 50 or older, and other employees eligible under current law, may make catch-up contributions. The Retirement Portal displays the current limit and treatment.

4. Company Matching Contribution

BluePeak matches:

- 100 percent of the first 4 percent of eligible pay the employee contributes; plus
- 50 percent of the next 2 percent of eligible pay the employee contributes.

The maximum company match is 5 percent of eligible pay when the employee contributes at least 6 percent.

Employee contribution	Company match	Total contributed before investment results
0%	0%	0%
2%	2%	4%
4%	4%	8%
5%	4.5%	9.5%
6% or more	5%	11% or more

The match is calculated each pay period. The plan performs an annual true-up for eligible employees who contributed unevenly and remained eligible through year-end, subject to plan terms.

5. Vesting

Employee contributions, rollover contributions, and their investment results are always 100 percent vested. Company matching contributions use a 2-year cliff:

Vesting service	Vested company match
Less than 2 years	0%
2 years or more	100%

A year of vesting service is measured under the plan document. A forfeited match may be restored after rehire when the employee repays a prior distribution and meets plan requirements.

6. Eligible Pay

Eligible pay generally includes regular base salary or hourly wages and certain cash compensation defined by the plan. It may exclude reimbursements, expense allowances, equity, severance, nonqualified deferred compensation, and other items. Bonus and commission treatment depends on the plan definition and payroll coding.

7. Investment Choices

The plan offers target-date funds, diversified stock and bond funds, capital-preservation options, and a self-directed brokerage option for eligible participants. The default investment is the target-date fund associated with the participant's expected retirement age.

Employees are responsible for investment elections and risk. Diversification does not eliminate loss. Fees, performance, objectives, and restrictions are available in the Retirement Portal. BluePeak and managers do not provide personal investment advice.

8. Rollovers Into the Plan

The plan accepts eligible rollovers from qualified retirement plans and traditional IRAs when the administrator approves the source and documentation. A direct rollover generally avoids current withholding. Do not send a rollover check to BluePeak; follow the administrator's instructions.

9. Plan Loans

One loan is permitted at a time. The maximum is the lesser of 50 percent of the vested account balance or \$50,000, reduced when required by prior-loan rules. The minimum loan is \$1,000.

General-purpose loans are normally repaid through payroll over up to 5 years. A principal-residence loan may have a longer period when approved. Interest is credited to the participant's account, but fees apply.

A leave or separation can affect repayment. Missed payments may cause default and taxable distribution. Employees should review the loan impact before borrowing.

10. Hardship and Other Withdrawals

Hardship withdrawals may be available for qualifying immediate financial needs defined by the plan and law. Documentation and tax consequences apply. In-service withdrawals may also be available at certain ages or for rollover accounts.

A withdrawal permanently reduces retirement assets and may be taxable or penalized. The administrator determines eligibility; BluePeak cannot approve an exception outside the plan.

11. Beneficiaries and Qualified Domestic Relations Orders

Employees should name and regularly review beneficiaries. Spousal consent may be required to name another primary beneficiary. A marriage, divorce, birth, or death does not automatically update an election in every circumstance.

A domestic-relations order must be reviewed by the plan's qualified-order process before the account can be divided. Send orders only to the secure address in the Retirement Portal.

12. Leave and Military Service

Contributions are based on pay received. Employees on an unpaid leave generally cannot contribute through payroll. Qualified military leave may provide make-up contribution and match rights after return. Contact Benefits promptly.

13. Separation and Distribution Options

After separation, a participant may generally leave the vested balance in the plan if the account meets the minimum, roll it to another eligible plan or IRA, or request a taxable distribution. Outstanding loans require prompt attention and may default under plan terms.

A distribution is not required merely because employment ends. Compare fees, investments, creditor protection, services, and tax treatment before deciding.

14. Fees, Statements, and Corrections

Participant statements show contributions, match, vesting, investments, fees, loans, and beneficiaries. Review each statement and report an error promptly. The plan may correct operational errors by adjusting contributions, earnings, vesting, or records as permitted.

15. Ireland Pension Note

Dublin employees are eligible for the BluePeak Ireland Defined Contribution Pension Plan under local terms. The company contribution, employee minimum, tax relief, and enrollment process are described in the Ireland Benefits Portal. The U.S. match and 401(k) loan rules do not apply.

16. Frequently Asked Questions

16.1 When am I automatically enrolled?

At 3 percent after 60 days unless you make an election or opt out.

16.2 How much do I need to contribute for the full match?

At least 6 percent of eligible pay to receive the maximum 5 percent match.

16.3 When is the company match mine?

After 2 years of vesting service under the cliff schedule.

16.4 How much can I borrow?

One loan at a time, generally up to 50 percent of the vested balance and no more than \$50,000, subject to plan limits.

16.5 Can BluePeak tell me which fund to choose?

No. Education and planning tools are available, but investment decisions are personal.

90. Administration, Exceptions, and Questions

BluePeak administers the retirement plan consistently with the employee's work location, employment classification, written employment terms, and applicable law. A statutory or contractual entitlement that is more generous than this document will apply to the extent required. A manager may not waive a legal requirement, create a new benefit, or promise an exception without written approval from the document owner.

Employees should raise questions before relying on an informal interpretation. Contact benefits@bluepeaktech.com through Outlook or the People Help channel in Microsoft Teams. Payroll, Legal, Information Security, or a site leader will be consulted when the question involves tax, wage-and-hour, privacy, immigration, safety, or local-law considerations.

Approved exceptions must identify the employee, the policy provision, the business reason, the approving authority, the start and end date, and any conditions. Exceptions are stored with the employee or transaction record and do not establish a precedent for other employees.

91. Related Documents and Systems

Resource	When to use it
Payroll Schedule & Direct Deposit Policy	Payroll deductions and pay-cycle timing.
Performance Bonus Policy	Bonus eligibility and eligible-pay treatment under the bonus plan.
Life & Disability Insurance	Beneficiary planning and leave-related income protection.
