Quick Answers

Question	Current rule
When is preapproval required?	For every overnight trip and any trip expected to exceed \$500.
Who approves a trip over \$2,500?	The department head in addition to the employee's manager and budget owner.
What airfare may I book?	Economy for flight segments under 6 hours; premium economy for a segment of 6 hours or more. Business class requires a documented exception.
What are the hotel caps?	\$250 per night before tax in designated major metropolitan markets; \$175 per night before tax in standard markets.
What are the meal limits?	Up to \$75 per day for domestic travel and \$95 per day for international travel, including tax and tip.
What mileage rate applies?	\$0.67 per business mile for an approved personal vehicle, unless the published rate is updated.
What receipt threshold applies?	Itemized receipt required for an expense over \$25; some categories require a receipt at any amount.
When is the expense report due?	Within 30 calendar days after domestic travel or 60 calendar days after international travel.

Use the approved Travel Hub: Booking outside the Travel Hub is permitted only for a documented lower total cost, an unavailable itinerary, a customer-required booking method, accessibility, or emergency. Unsupported convenience alone is not an exception.

1. Purpose and Scope

BluePeak supports business travel that is necessary, safe, cost-conscious, inclusive, and consistent with customer and operational priorities. This policy applies to employees, candidates, contractors, guests, and other travelers whose costs are paid by BluePeak. The sponsoring employee is responsible for communicating applicable rules to a non-employee traveler.

This document governs travel approval and purchasing choices. The Expense Reimbursement Policy governs substantiation, submission, approval, reimbursement, and recordkeeping. A corporate card remains subject to the Corporate Credit Card Policy.

2. Travel Decision and Preapproval

Before requesting travel, consider whether the objective can be met effectively by Teams, a local representative, or a combined trip. Cost is one factor; customer value, collaboration, accessibility, employee wellbeing, security, and environmental impact also matter.

Preapproval is required for:

- 1 every trip involving an overnight stay;
- 1 any trip expected to cost more than \$500 in total;
- 1 any international trip;
- 1 a conference, external training, or event with a registration fee;
- 1 travel booked outside the approved Travel Hub; and
- 1 any trip involving a personal extension, companion, high-risk location, or exception.

The manager and budget owner approve the business purpose and estimated cost. A total estimate above \$2,500 also requires the department head. International or elevated-risk travel may require Security, Legal, Tax, Immigration, or People Operations review.

The request should identify traveler, destination, dates, business purpose, customer or event, estimated air/rail, lodging, ground transport, meals, registration, and any exception. Approval does not waive expense substantiation.

3. Booking Standards

Travel should be booked promptly after approval, normally at least 14 days before domestic departure and 21 days before international departure. Select the lowest logical fare or rate that reasonably meets business, safety, productivity, and accessibility needs. Travelers need not select an itinerary that adds more than two hours of total travel time or creates an unreasonable overnight connection solely to reduce cost.

Unused ticket credits, airline waivers, negotiated hotel rates, and traveler profiles are managed through the Travel Hub. Credits paid by BluePeak belong to BluePeak and must be applied to future business travel when practical.

Travelers may retain loyalty points and status benefits, but may not choose a materially higher company cost solely to earn them. Reimbursement is limited to the compliant alternative.

4. Air and Rail Travel

4.1 Class of Service

Segment duration	Standard class
Under 6 scheduled flight hours	Economy
6 or more scheduled flight hours	Premium economy, where offered
Rail up to 4 hours	Standard or coach class
Rail over 4 hours	First class where reasonably priced and productive

Duration is measured by the individual nonstop segment, not total itinerary. Business or first-class air requires written approval from the Chief Financial Officer or Chief People Officer based on a medical accommodation, documented security need, or exceptional business circumstance. Upgrades purchased with the traveler's personal points are permitted when they create no company cost or obligation.

4.2 Fare Features

BluePeak will pay for a standard seat assignment and one checked bag when needed. Extra-legroom economy may be approved when the segment is at least four hours, the employee is expected to work immediately after arrival, or an accessibility need applies. Lounge membership, onboard entertainment, and personal Wi-Fi plans are not reimbursable; trip-specific Wi-Fi used for business may be reimbursed.

Changeable fares may be selected when the itinerary is likely to change and the total expected cost is lower than a restricted fare plus probable fees. Fully refundable fares require a documented business reason.

5. Lodging

The nightly room-rate caps, excluding required taxes and destination fees, are:

- 1 \$250 in designated major metropolitan or high-cost markets; and
- 1 \$175 in standard markets.

The Travel Hub identifies major markets and negotiated properties. A rate above the cap may be approved when the conference hotel, customer-designated hotel, safety, accessibility, location, or local availability produces a lower total trip cost or materially reduces risk. The traveler should document the reason before booking when practical.

BluePeak pays for a standard business room, required internet, and reasonable hotel parking. Optional resort charges, movies, minibar purchases, spa services, upgrades, and companion costs are personal. Laundry may be reimbursed after five consecutive nights or when unavoidable disruption creates a reasonable need.

A traveler should cancel within the property's deadline. Avoidable no-show charges are reimbursable only when a documented emergency or business change prevented cancellation.

6. Meals and Incidentals

BluePeak reimburses actual reasonable meal costs up to a daily maximum of:

- 1 \$75 for domestic travel; and
- 1 \$95 for international travel.

The cap includes food, non-alcoholic beverages, reasonable alcohol consumed with a business meal, tax, and tip. It is not a cash per diem; only actual business-travel costs are claimed. Travelers should reduce the day's claim when breakfast, lunch, or dinner is provided by a conference, hotel, customer, or host.

Tips should generally follow local custom and should not exceed 20 percent in the United States without explanation. Alcohol must be moderate, lawful, and consistent with the Code of Conduct. Alcohol purchased alone, intoxication-related cost, and entertainment venues primarily focused on adult content are not reimbursable.

A group meal should be paid by the most senior BluePeak employee present or the designated host. The expense record must list attendees and business purpose. The payer should not approve their own report.

7. Ground Transportation

Use the safest and most economical practical option among public transit, rideshare, taxi, rental car, or personal vehicle. Airport rideshare and taxi costs have no fixed cap when reasonable for the route and supported by a receipt.

7.1 Rental Vehicles

Reserve an intermediate-size vehicle unless passengers, equipment, terrain, accessibility, or safety require another class. In the United States, decline collision coverage when the approved corporate rate includes BluePeak's insurance; accept required local coverage internationally or when instructed by the Travel Hub. Fuel should be replaced before return when practical. Fines, towing caused by a violation, and optional luxury upgrades are personal.

7.2 Personal Vehicle

Approved use of a personal vehicle is reimbursed at \$0.67 per business mile. The rate covers fuel, wear, maintenance, depreciation, and personal insurance. Tolls and business parking may be claimed separately. Ordinary commuting miles are not reimbursable. The traveler must hold a valid license and legally required insurance and is responsible for traffic or parking violations.

When a personal-vehicle trip costs materially more than reasonable airfare, rail, or rental car, reimbursement may be limited to the lower compliant alternative unless the manager approved a business reason.

8. International Travel

International travel requires manager, budget owner, and department-head approval regardless of cost. Submit the request early enough for passport, visa, work authorization, tax, data-access, insurance, and security review. A traveler may not perform work in another country merely because entry as a tourist is permitted.

BluePeak pays required business visas, passport-expediting fees needed because of approved business timing, vaccinations or tests required for entry, and reasonable currency-conversion costs. A routine passport and optional trusted-traveler membership are personal unless a role-specific written approval applies.

Travelers must review security guidance, register emergency contacts in the Travel Hub, protect devices, use approved connectivity, and follow data restrictions. A lost device, document, or suspected compromise must be reported immediately.

9. Safety, Health, and Accessibility

No employee is expected to travel when a credible safety, health, severe-weather, civil-unrest, or public-health concern makes the trip unreasonable. Travelers may pause or change an itinerary in good faith to protect safety and should contact the travel assistance line and manager when able.

BluePeak will consider disability, pregnancy, religious, caregiving, gender-identity, and other accommodation needs. Contact People Operations; medical details should not be placed in the travel request. Approved accommodations may include a class-of-service exception, accessible vehicle, additional baggage, support person, schedule adjustment, or alternate lodging.

10. Personal Extensions and Companions

A traveler may add personal days when the business purpose and approval are not compromised and BluePeak incurs no incremental cost. The traveler must provide a comparison captured at booking. Personal airfare difference, lodging, meals, insurance, ground transportation, tax, visa consequences, and companion costs are personal.

A companion may share the room when the hotel does not charge more, but the traveler must pay any additional occupancy or amenity fee. BluePeak is not responsible for a companion's safety, insurance, or disruption costs. Personal days are recorded as PTO or another approved leave.

11. Changes, Disruptions, and Emergencies

Use the Travel Hub or emergency assistance channel for cancellations and significant changes. When disruption requires an unplanned hotel, meal, alternate route, or ground transport, choose a safe and reasonable option and retain documentation. Approval may be obtained after the fact when advance contact was impractical.

In an immediate emergency, contact local emergency services first. Then notify the travel assistance provider, manager, Security, and Workplace when safe. Security may direct evacuation, relocation, or trip cancellation.

12. Non-Reimbursable Travel Costs

BluePeak does not pay for personal entertainment, childcare or pet care, ordinary commuting, traffic or parking fines, avoidable no-show fees, personal travel insurance, luxury upgrades, companion costs, cash-equivalent purchases, political contributions, unlawful activity, or costs caused by intoxication or misconduct. A business leader cannot reclassify a personal cost as business expense.

13. Expense Submission

Itemized receipts are required for expenses over \$25, hotel charges, airfare or rail, rental vehicles, conference fees, and any category required by Finance. Submit domestic travel expenses within 30 calendar days after trip end and international travel expenses within 60 calendar days. Use the Expense Reimbursement Policy for currency conversion, missing receipts, approvals, and payment timing.

90. Administration, Exceptions, and Questions

BluePeak administers business travel consistently with the employee's work location, employment classification, written employment terms, and applicable law. A statutory or contractual entitlement that is more generous than this document will apply to the extent required. A manager may not waive a legal requirement, create a new benefit, or promise an exception without written approval from the document owner.

Employees should raise questions before relying on an informal interpretation. Contact travel@bluepeaktech.com through Outlook or the People Help channel in Microsoft Teams. Payroll, Legal, Information Security, or a site leader will be consulted when the question involves tax, wage-and-hour, privacy, immigration, safety, or local-law considerations.

Approved exceptions must identify the employee, the policy provision, the business reason, the approving authority, the start and end date, and any conditions. Exceptions are stored with the employee or transaction record and do not establish a precedent for other employees.
